Delaware Valley Job Corps Weekly Newsletter

Friday September25, 2026 ◆ www.Delawarevalley.jobcorps.gov

Julianna Taratuchin

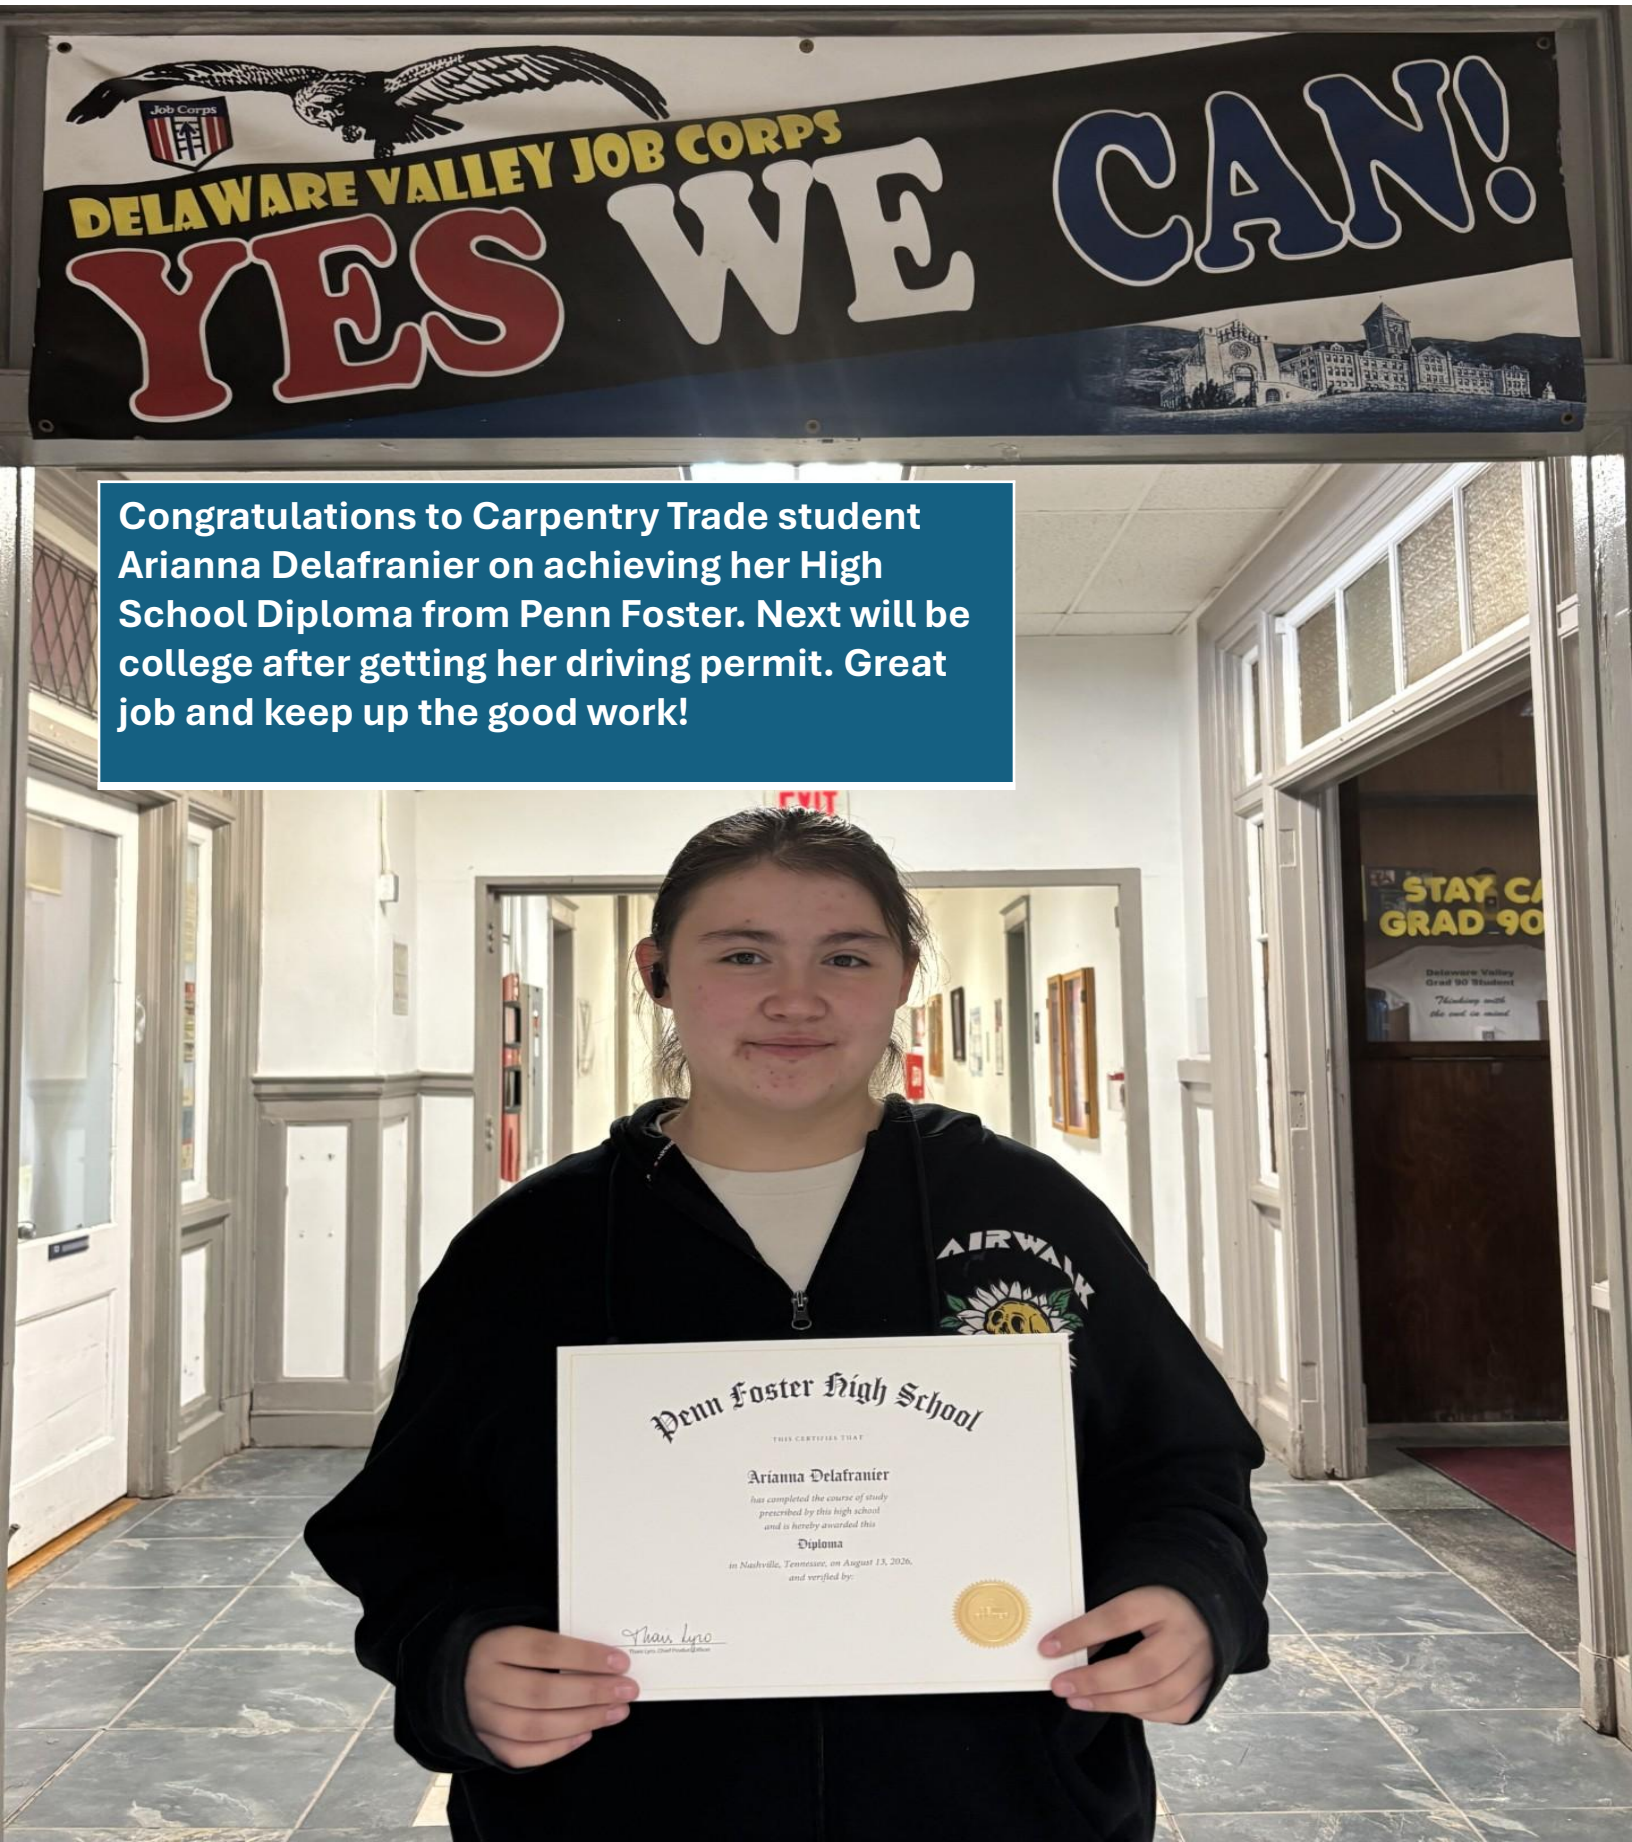

Congratulations to former student and DVJCC Graduate, Julianna Taratuchin. She is currently enrolled at the Herkimer County Community College where she is given the responsibility to maintain her own area. She is also provided an apartment at the college.

Julianna was a Facility Maintenance Trade student. She came to DV on August 2024 and completed less than a year later on May 2025. She stayed focus and got along with all staff and students. Towards the completion her studies, she did Work Based Learning on center with DV's Maintenance Team who took her under their wings and showed her what they do on a daily. She thanked the team for showing her the ropes which helped her to get where she is now.

Congratulations and keep up the good work Julianna!

Congratulations Arianna!

Culinary Arts gets Creative!

During the New Student CPP Luncheon, the Culinary Arts Trade students, with the help of Café Manager, Ms. Heather Miller, made some delicious Sesame Chicken and Crab Rangoon. For dessert, there was a huge slice of lemon cake for everyone to enjoy! Great job everyone.

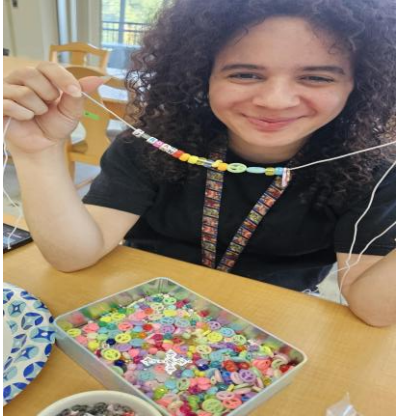

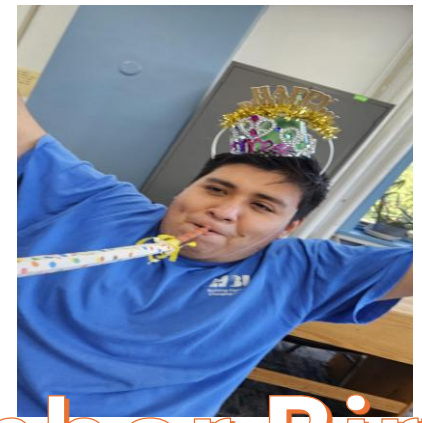

Happy September Birthdays

SEPTEMBER IS WHAT?

#Showcasing Success

Revving up with Roto-Rooter

Grafton HBI Plumbing graduate Samuel Hargrove is rolling along with Roto-Rooter, having recently purchased his own Roto-Rooter van. While in Job Corps, Samuel was already identifying plumbing issues such as the clogged drain in the HBI Plumbing building, which he correct re-piped. He interned at Roto-Rooter as a drain technician, quickly leading to full-time employment. Since then, Samuel has worked toward his future goals of leading his own team and his own company. Great work, Grafton!

Union Pride

Sacramento HBI students were on their home turf, as the BCT and HVAC students visited the **Local 447** training facility. They enjoyed some hands-on training from union professionals and absorbed information about union benefits and how to apply. These visits are an important step to future apprenticeships and other union positions. Sensational trip, Sacramento!

Cleaning Up at the College

Glenmont Facilities Maintenance students are sweeping in to help the maintenance department at **Albany Sage College. Students Aonyaih Lewis-Fish and Amarion Stevens** visited the campus to observe live maintenance work and tour the maintenance shop. Albany Sage College has several active openings due to its upcoming merger with the **Albany College of Pharmacy**, and Glenmont students are eager to fill those workforce gaps. Great opportunity, Glenmont!

From the President, Susan Sez

Adams' **New England Dream Team** was up for its second adventure of the month, this time attending the Boston Region Maritime Industry Conference. **Grafton CD Nicole, Trombly, Shriver CD Stephanie Ashworth, New Hampshire CD Jessica King** and **Exeter CD Shakisha Holley**, accompanied by **Adams Associate VP Ross Peterson**, met with top workforce and community college officials from New England, along with maritime industry employers. Ms. Holley and **Exeter graduate Andreaz Morales** even participated in a presentation from **General Dynamics Electric Boat** on tying the workforce to maritime employer needs. **Job Corps leaders Erin McGee, Aneta Hrebenko and Thony Martino** also emphasized Job Corps efforts to work with maritime employers. Among the other highlights of the event was the tour the CDs took on a maritime training ship.
